*Brother Justinius*

"BRO. JUSTINIUS" is the best cut flower Dahlia we ever grew. It even surpasses "Begonia Rose" by blooming so much earlier. The blooms (disbudded) have to be cut daily. It always stands out above all others, mainly due to its extreme profusion of bloom. It is most beautiful, it keeps well when cut and is uniformly vigorous in bush growth. It is a wonderful Dahlia.

## THE GOLDEN RULE DAHLIA FARM

This Dahlia Farm was established on a national basis thirty (30) years ago. The original management is still in charge, and we now send dahlias all over the world.

All through our history we have sought for dahlias that are easier to grow and which produce blooms in spite of insects and drought. If a dahlia which formerly we listed does not now appear in our catalogue it is because we have had trouble with that variety. It has perhaps failed to make good roots during drought or has been too much subject to stunts and insect damage.

We specialize in dahlias that are easier to grow and bloom and produce the best tubers for your future years of growing.

Get acquainted with Golden Rule Dahlias, and join the growing list of satisfied customers.

Remember, WE WANT YOU TO HAVE WHAT YOU BUY.

## THE DAHLIA

The Dahlia is the greatest of all Flowers. They have been grown up to 18 inches in diameter and as small as one half inch. You do not have to be an expert to get this wonderful flower to produce top quality flowers. There are all colors—except blue—and all types of petal formations. Variegated colors, bi-colors and solid blend colors. No two varieties are alike and there are well over 500 being grown. You get more out of them, for your money, time and effort, than any other flower. Great strides have been made in the development of the Dahlia in the last ten years. Try some of the old favorites and a few of the new ones and you will see what we mean.

In case we are sold out of a variety we shall supply nearest variety or one equally as good or better, unless you advise otherwise.

## HOW TO ORDER

It is important to order early. This will help us in reserving the stock for you. If we are out of certain varieties we will write you, unless you have advised us that substitutions will be permitted. On late orders please give SECOND CHOICE.

## SEND CASH WITH MONEY ORDER

Make checks or money orders payable to Golden Rule Dahlia Farm. Send cash by registered mail.

Plants may be shipped from April 15th to July 15th. Please add 45c for packing and parcel post on all shipments, both roots and plants.

## GUARANTEE

We guarantee all dahlia stock to be healthy and true to name. If through failure to start, or damaged in mail, we will replace immediately if notified promptly. Give the plants time to get started. The Golden Rule works both ways.

Plants may be shipped from April 15th to July 15th. Please add 45c for packing and parcel post on all shipments, both roots and plants.

If you have Special Delivery service, send an additional 45c for Special Delivery on plant and rooted cuttings orders, making 90c total.

If you reside in Ohio, also add 3% sales tax.

On account of higher postage rates we will add an extra fine dahlia to each dahlia plant order.

### GOLDEN RULE DAHLIAS

CONSIST OF dahlia roots, plants and rooted cuttings. A ROOT will be a division from a dahlia field clump, guaranteed true to name with one or more eyes. A PLANT has been grown from a dahlia rooted cutting into a large husky plant that is ready for immediate planting upon arrival. Plants will grow and bloom as quickly as roots. Also will form nice clumps when properly grown. Plants are considerably cheaper than roots. A large percentage of our customers prefer plants to roots. They are guaranteed healthy and true to name.

ROOTED CUTTINGS are well rooted dahlia sprouts, before putting in pots to grow plants. You should have experience in growing them. Transplant to a pot and grow 2 weeks before setting out. Price is 1/3 less than plant price. This does not include bargain collections.

Order Collection A, B, etc.

Dahlias must have moisture at the roots to do well. Therefore, during a drought like we had last season, they must be soaked once a week in order to keep them growing and insure a good tuber crop and good flowers.

In 1953 our rainfall was 13 inches less than normal, with the driest months in July, August, September and October, just when the Dahlias need rain the most.

We lost several big trees from the drought but kept our Dahlias growing by overhead irrigation.
